## **Welcome to BOO FRUIT!**

Get ready for an electrifying gaming experience with BOO FRUIT! In this thrilling game, you take control of a spirited ghost, maneuvering it left and right with your joystick. But here's the twist: with the press of a button, you can change the ghost's color.

Your objective is simple yet challenging: match the color of your ghost with the incoming fruits. Failure to do so results in the end of the game. Each fruit successfully collected adds 1 point to your score.

But beware, as the game progresses, the speed of the incoming fruits increases, adding an extra layer of challenge to your ghostly adventures. Keep your reflexes sharp and your wits about you as you navigate through the escalating frenzy of BOO FRUIT!
